AFTERCARE

*If you have any questions or
to enquire contact
07472230790
hello@beaut-ology.com*

To ensure maximum results after your treatment please follow the relevant aftercare advice. If you experience any issues such as swelling, itchy rash or bruising please let us know, after seeking appropriate medical advice & assistance.

HD BROWS

-  *Avoid tweezing in between appointments.*
-  *Avoid using makeup and facial cleansers around brow area for 24 hours after treatment.*
-  *Avoid prolonged contact with direct sunlight, the use of sun beds, saunas, steam rooms & swimming pools for 24 hours after treatment.*
-  *Avoid exfoliating & anti aging products around the brow area for 3 days either side of the treatment.*
-  *It is advisable not to use any fake tanning products on the face or around the brow area for around 2 or 3 days either side of the treatment. If you do wish to use a fake tanning product on your face, apply a barrier to the hair and small area around the brow prior to tanning to prevent dis-colouration of your tint.*
-  *Remember your results will be darker and more defined immediately after your treatment. The makeup applied is not permanent and the tint will fade depending on the frequency of cleansing.*

LVL ENHANCE

-  *Do not get lashes wet for the first 24 hours.*
-  *Avoid steam, sauna & swimming for the first 48 hours.*
-  *Avoid touching, rubbing or introducing foreign bodies or contaminants into the treatment area.*
-  *Ensure lashes are not disturbed or manipulated into different positions (e.g. when sleeping, cleansing the face, applying moisturiser or cosmetics) for the first 24 hours.*
-  *Do not use any makeup, cleansers or moisturiser on the lashes for the first 24 hours.*
-  *Do not perm lashes or use lash curlers.*
-  *To ensure that your lashes stay in fabulous condition, we recommend that you use Nouveau Lash Conditioning Serum from root to tip each morning & night.*

LASH TINT

-  *Do not get lashes wet for the first 24 hours.*
-  *Avoid steam, sauna & swimming for the first 48 hours.*
-  *Avoid touching, rubbing or introducing foreign bodies or contaminants into the treatment area.*
-  *Avoid strong sunlight or UV light.*

EXPRESS STRIP LASH

- *Avoid water, steam, sauna & swimming whilst wearing the strip lashes.*
- *Avoid touching, rubbing or introducing foreign bodies or contaminants into the treatment area.*
- *Ensure lashes are not disturbed or manipulated into different positions (e.g. when cleansing the face, applying moisturiser or cosmetics) for the first 24 hours.*
- *Do not perm strip lashes or use lash curlers.*
- *Do not use waterproof mascara.*
- *Remove at the end of the day.*

HENNA

- *As soon as the henna starts to crumble, apply a solution of lemon juice and sugar to help retain the moisture in the henna. This will help the henna to develop a darker shade.*
- *Leave the henna on the skin for at least 6-8 hour.*
- *Use a blunt instrument to scrape the henna off your skin.*
- *Once the henna is removed it should leave an orange-red stain on the skin, this will deepen to a rich red-brown over the next 24-48 hours depending on how dry and warm the skin is during this time.*
- *Once the henna has been removed, avoid using water in this area for at least 12 hours and keep the skin as warm as possible.*
- *Avoid using any creams on the area for the first 24 hours.*
